

Clear, Chlorine & Odor Free Water.

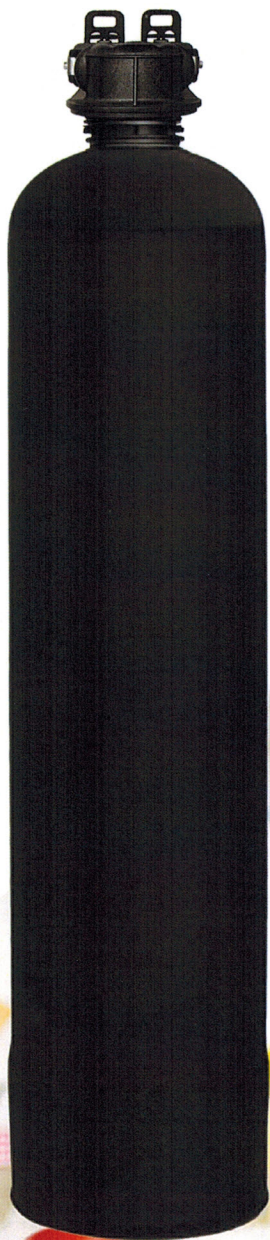

Eagle

You can immediately see and feel the difference a whole house water filter makes to the quality of your water and the quality of your life.

*Problem water is no problem with an **Eagle EAC Carbon Filter**. Eliminate Chlorine and Other Bad Taste & Odors.*

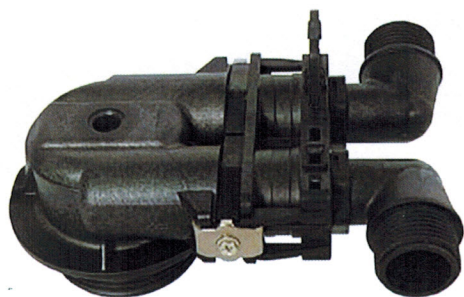

Features:

- Economical whole-house carbon filtration solution for reducing chlorine.
- Co-current flow protects media bed from packing ensuring better flow rates.
- Low maintenance system. No electricity required.
- Includes factory installed one-piece bypass
- Time saving quick connect fittings (90° 3/4" NPT Elbows and 3/4" Straight NPT) included for faster, easier installation.

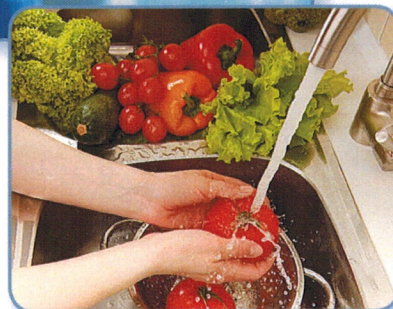

Eagle EAC Carbon Filter

Once water arrives safely at your home there is no further need for disinfectants. In fact they are undesirable! Disinfectants cause taste and bad odor, dry skin, damage plumbing, and can produce potentially harmful by-products.

Economical non-back-washing distribution head with convenient quick connect fittings
