

Clean, Clear, Color-Free Water.

Eagle

You can immediately see and feel the difference a whole house water filter makes to the quality of your water and the quality of your life.

*Problem water is no problem with our full line of **Eagle Platinum Backwashing Filters**. Eliminate iron, sediment, bad tastes, stains and odors, as well as, color caused by organics. The high-efficiency control valve monitors water usage and flushes the system automatically, readying it for operation again.*

Features:

- Exclusive NSF Certified control valve with reliable electronic sensors, adjustable cycle time and proven piston, seal & spacer design
- NSF Certified fibreglass pressure tank
- Tank jackets reduce condensation.
- User-friendly backlit LCD display
- Simple set up and programming with no confusing codes or symbols to remember
- Automatic Vacation Mode prevents media cementing
- "No Touch" LCD information display rotates key info like last regeneration date, current flow rate & peak flow rate
- Unique, compact one piece bypass with integrated turbine meter

Eagle Classic Backwashing Filters

- **Taste & Odor Filters (TO):** Chlorine and organic matter can make your water smell and taste terrible. The **Eagle Platinum Carbon Taste & Odor Filter** uses high-quality granular activated carbon to absorb the problem-causing substances.
- **Nexsand Turbidity Filters (NEX):** Remove suspended solids, Ferric Hydroxide (Red Water Iron) or Sediment from your well or water system down to 5 Microns. Nexsand has proven extremely effective and will double the service flow of Multi Media or Sand Filters.
- **Iron & Sulfur Filters (ISF):** Water comes in contact with manganese greensand causing oxidization into solids which can be trapped in the filter bed.
- **Neutralizing Filters (NV): Eagle Platinum Neutralizing Filters** raise the pH of acidic water to neutralize corrosiveness protecting fixtures, pipes and appliances.
- **Tannin Filters (TAN):** Tannins are caused by decaying organic matter which stain most materials it comes into contact with. The system uses anion exchange resin to remove color caused by organic decay - greatly improving aesthetics and preventing costly staining.

Features:

- Time saving quick connect fittings on bypass, drain & brine line. Even the power cord has quick connects
- Drain line o-ring. No need for Teflon
- Audible Cycle Advance Alarm
- 48 hour self charging battery back-up
- Meter Immediate, Meter Delayed, and Meter with Day Over ride
- Includes hose clamp and 10' of drain tubing

Specifications/Model Number	Eagle Platinum TO15	Eagle Platinum NEX15	Eagle Platinum ISF15	Eagle Platinum NV15
Item #	8926	8925	8932	8930
Normal Service Flow Rate	7.0 gpm	8.0 gpm	4.0 gpm	5.0 gpm
Peak Service Flow Rate	10.0 gpm	10.0 gpm	8.0 gpm	8.0 gpm
Micron Rating	N/A	3-5 micron	N/A	N/A
Compensated Iron Removal Capacity	N/A	6,000 ppm	9,500 ppm	N/A
KMnO4 per Regen	N/A	N/A	4 oz	N/A
Backwash Flow Rate	5.0 gpm	10.0 gpm	5.0 gpm	5.0 gpm
Filter Media Volume - Cubic Feet	1.5 ft	1.5 ft	1.5 ft	1.5 ft
Filter Tank Size	10 x 54	10 x 54	10 x 54	10 x 54
Tank Jacket / Media Loaded	Yes	Yes	Yes	Yes
Shipping Weight	78 lbs	205 lbs	179 lbs	164 lbs

Specifications	Eagle Platinum TAN15
Factory Settings - High Capacity	
Salt Used - Per Regeneration	18.0 Lbs
Water Used - Regeneration	90.3 gal
Tannins Removal	3000 ppm
Resin Quantity - Cubic Feet	1.5 ft
Tank Size	10x54
Tank Jacket	Yes
Media Loaded	Yes
Brine Tank / Cabinet Size (Inches)	14" X 14" X 30"
Salt Storage Capacity (lbs)	175
Recommended Service Flow Rate	4.5 gpm
Flow Rate @ 15 psi Pressure Drop	11.2 gpm
Flow Rate @ 25 psi Pressure Drop	15.1 gpm
Back Wash Flow Rate	2.4 gpm
Shipping Weight	155 lbs
Regeneration Type	Co Current / Downflow
Maximum Tannins	3.0 ppm
Plumbing Connections	Incl's 3/4" 90° Elbows & 1" Straight NPT
Resin Type	Purolite 860 Anion Exchange Resin
Electrical Requirements	Input 120V 60 Hz - Output 12V 650mA
Water Temperature	Min 39 - Max. 100° F
Water Pressure	Min. 20 - Max. 125 psi
